Live Online Instructor-Led Training

WHO WE ARE

Empowering Future SAP Professionals

At Evolve O Tech we believe quality education should lead to real career opportunities. Our online SAP programmes are designed for students, fresh graduates and working professionals who want practical, industry-ready skills — bridging the gap between academic learning and the way SAP is actually used in business.

Our Vision

To become a trusted SAP learning platform that equips aspiring professionals with the knowledge, practical skills and confidence to build successful careers in the global SAP industry.

Our Mission

To make high-quality SAP education accessible through practical, industry-focused training — giving every learner job-ready skills, real-world experience and professional guidance for long-term success.

OUR LEARNING APPROACH

01 Industry-Focused Curriculum

Course content is mapped to current SAP S/4HANA technologies and live business processes, so what you learn is what projects actually use.

02 Live Instructor-Led Training

Interactive online sessions with practising SAP consultants — ask questions in real time and get personalised guidance.

03 Practical Learning Methodology

Hands-on system exercises, module-wise assignments and project-based learning that turn theory into working skills.

04 Career-Oriented Training

Resume building, interview preparation and professional mentoring are built into every programme, not bolted on at the end.

05 Continuous Learner Support

Dedicated doubt-clearing sessions, recorded classes and mentorship that continue through your entire learning journey.

WHY CHOOSE EVOLVE O TECH

Industry-focused SAP curriculum

Live instructor-led classes

Hands-on practical learning

Real-world business scenarios

Expert trainers & mentorship

Career guidance & interview prep

Flexible online learning

Dedicated learner support

Job-ready skill development

THE OPPORTUNITY

Build a Future-Proof Career with SAP

SAP runs the core processes of a large share of the world's biggest companies. Learning it gives you a skill set that is specialised, in demand and portable across industries and countries.

Why Learn SAP?

- ✓ Industry-recognised ERP expertise valued across every sector
- ✓ Consistently strong demand in global organisations
- ✓ Career paths in both functional and technical domains
- ✓ Deep, practical understanding of real business processes
- ✓ Excellent long-term growth and earning potential
- ✓ Skills that transfer across industries and geographies

Global Demand

Multinationals and consulting firms hire SAP talent worldwide.

Two Career Tracks

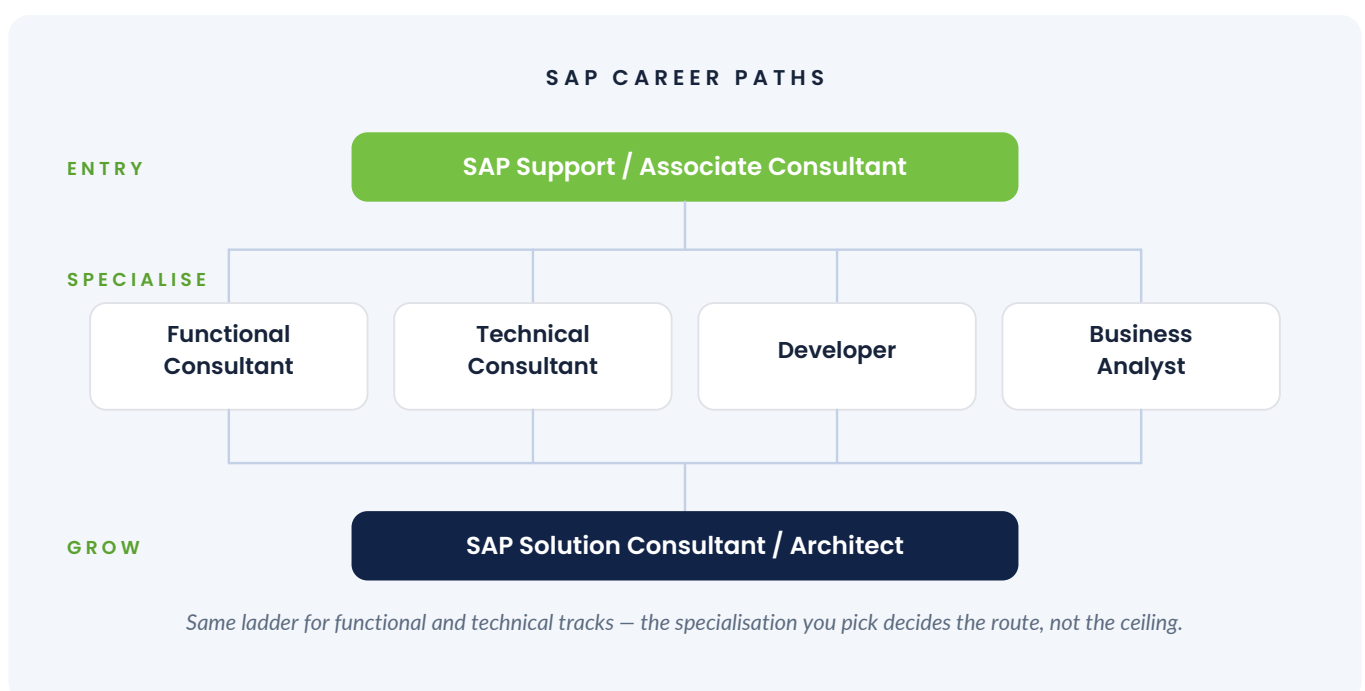

Choose a functional, technical or hybrid path — all three are valued.

Long-Term Growth

Consultants move into lead and architect roles as they gain experience.

GLOBAL CAREER OPPORTUNITIES

SAP professionals are sought after by multinational corporations, consulting firms, implementation partners and technology companies. With certification and practical experience, opportunities open across North America, Europe, the Middle East, Asia-Pacific and beyond.

OUR DIFFERENCE

Why Learn with Evolve O Tech?

Everything in our programmes is built backwards from one question: what will make you employable on a real SAP project?

01 Industry-Experienced Trainers

Learn from SAP professionals with real implementation and consulting experience.

02 Live Interactive Classes

Engaging instructor-led sessions with real-time Q&A — attend from anywhere.

03 Hands-on Practical Learning

Build skills through guided SAP system exercises and business scenarios.

04 Industry-Relevant Curriculum

Master the latest SAP S/4HANA technologies aligned to current industry needs.

05 Real-Time Projects

Work on end-to-end projects and case studies that mirror live environments.

06 Career-Focused Learning

Technical guidance, interview preparation and resume support throughout.

07 Placement Assistance

Career counselling, mock interviews and job assistance to help you step in.

OUR COMMITMENT

We train the way real projects work.

Our trainers are working SAP consultants, so sessions are built around live requirements, real error messages and the decisions consultants actually make on a project — not textbook exercises. You finish the programme able to talk about your work in an interview, because you have genuinely done it.

WHAT'S INCLUDED

Training Features in Every Programme

Each course runs on the same proven format — live teaching, structured practice and career preparation from day one.

01 Live Instructor-Led Sessions

Interactive online classes with real-time guidance from experienced consultants.

02 Hands-on Assignments

Module-based assignments designed to deepen practical understanding.

03 Real-Time Business Scenarios

Industry case studies showing how SAP is actually used in organisations.

04 Comprehensive Learning Material

Study resources, reference guides and training documents for the full course.

05 Recorded Class Sessions

Revisit every session at your own pace — never lose a class you missed.

06 Mock Interviews

Technical and HR practice rounds that build confidence and communication.

CERTIFICATION & ASSESSMENT

Evolve O Tech Course Completion Certificate

Progress is tracked through module assessments, assignments and a final real-time project review. Learners who complete the programme receive an Evolve O Tech certificate validating their skills — a credential you can put straight on your resume and LinkedIn profile.

✓ **Module assessments**

✓ **Project review**

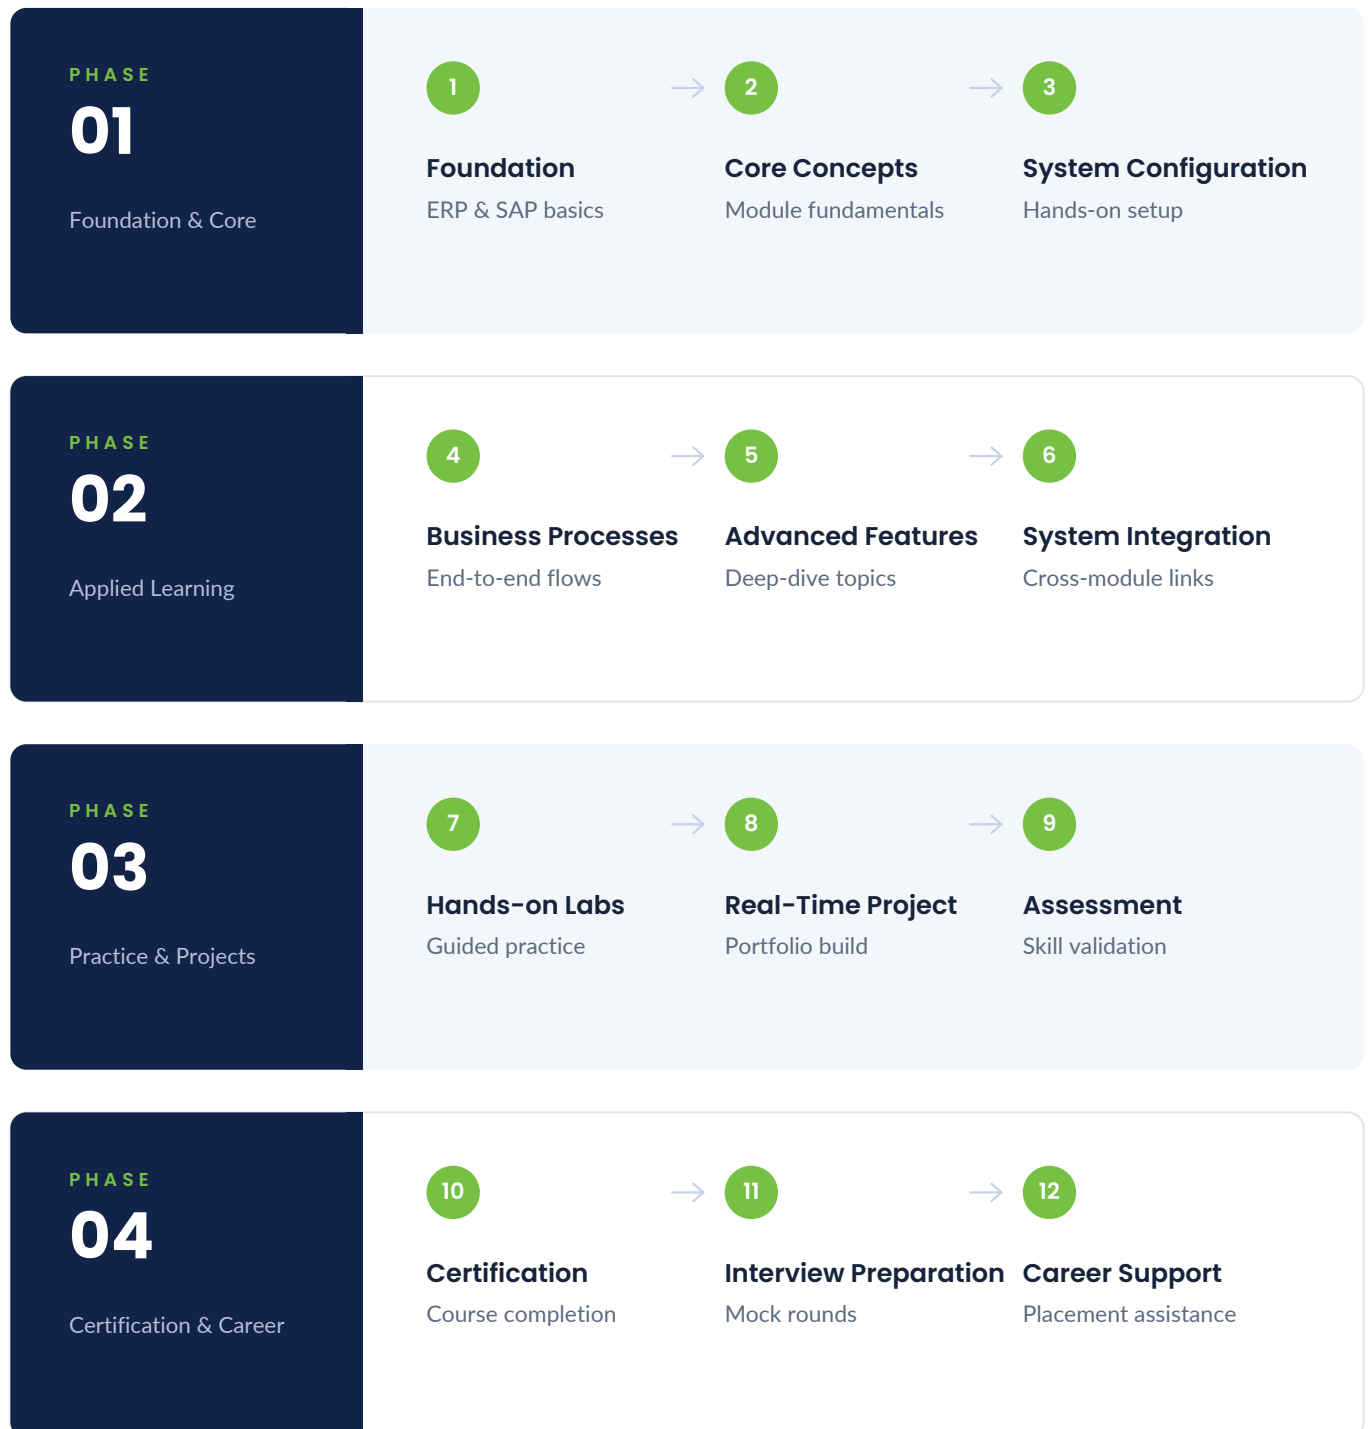

✓ **Final certificate**

HOW IT WORKS

Your 12-Step Learning Roadmap

Every Evolve O Tech programme follows the same structured path — from fundamentals to a finished project and a job-ready profile.

WHAT WE TEACH

Our SAP Training Portfolio

Eleven career-focused programmes across the technical and functional sides of SAP — each with its own hands-on labs and real-time project.

TECHNICAL MODULES

SAP ABAP on HANA

Core development on S/4HANA

SAP RAP

Modern RESTful application programming

SAP UI5 & Fiori

Enterprise UX & front-end development

SAP BTP

Cloud platform, extensions & integration

AI-driven enterprise applications

FUNCTIONAL MODULES

SAP MM

Materials management & procurement

SAP SD

Sales, distribution & order-to-cash

SAP FICO

Financial accounting & controlling

SAP EWM

Extended warehouse management

SAP SuccessFactors

Cloud HR & people management

Not sure which module suits you?

Talk to us before you enrol. We map your academic background, work experience and career goal to the right SAP track — and tell you honestly if a module is not the right fit.

DETAILED SYLLABUS

Course Curriculum

Each module below is delivered live, reinforced with assignments and closed out with a real-time project.

SAP ABAP on HANA

CORE DEVELOPMENT ON S/4HANA

• SAP Fundamentals	ERP Concepts & SAP Architecture
• Core ABAP Programming	Variables, Data Types & Control Statements
• Data Dictionary (DDIC)	Tables, Views & Data Elements
• Reports & ALV	Classical, Interactive & ALV Reports
• Object-Oriented ABAP	Classes, Objects & Methods
• SmartForms & SAPscript	Form Development & Printing
• CDS Views & AMDP	SAP HANA Development
• OData Services	SAP Gateway Integration
• Performance Optimisation	Debugging & Code Analysis
• Practical Learning	Real-Time Project & Interview Prep

SAP RAP

MODERN RESTFUL APPLICATION PROGRAMMING

• RAP Fundamentals	RAP Architecture & Framework
• CDS View Entities	Data Modelling
• Behavior Definitions	Business Object Development
• Service Definition	Service Binding
• EML	Entity Manipulation Language & CRUD
• Managed & Unmanaged RAP	Application Development
• Fiori Elements	UI Generation
• OData Services	RESTful APIs
• Testing & Debugging	Performance Optimisation
• Practical Learning	Real-Time RAP Project

SAP UI5 & Fiori

ENTERPRISE UX & FRONT-END DEVELOPMENT

• SAPUI5 Fundamentals	HTML5, CSS & JavaScript
• MVC Architecture	XML Views & Controllers
• Data Binding	Models & Routing
• OData Integration	Backend Connectivity
• Fiori Design	SAP UX Guidelines
• Business Application Studio	Development Environment
• Responsive Applications	Mobile-Friendly Design
• Fiori Launchpad	App Deployment
• Testing & Debugging	Application Optimisation
• Practical Learning	Real-Time UI5 Project

DETAILED SYLLABUS

Course Curriculum

continued

SAP BTP

CLOUD PLATFORM, EXTENSIONS & INTEGRATION

• SAP BTP Overview	Cloud Platform Fundamentals
• SAP HANA Cloud	Database Services
• Business Application Studio	Cloud Development
• Integration Suite	API & Process Integration
• Extension Suite	Application Extensions
• SAP Build	Low-Code Development
• Process Automation	Workflow Automation
• Identity Services	Authentication & Security
• AI Services	Intelligent Applications
• Practical Learning	Real-Time Cloud Project

SAP BASIS

SYSTEM ADMINISTRATION & LANDSCAPE

• SAP Architecture	System Landscape
• SAP Installation	Configuration
• Client Administration	User Management
• Transport Management	System Migration
• SAP HANA Administration	Database Management
• Performance Monitoring	System Optimisation
• Backup & Recovery	Disaster Recovery
• Security Administration	Authorisation Management
• System Maintenance	Patch & Upgrade Management
• Practical Learning	Administration Scenarios

SAP GenAI

AI-DRIVEN ENTERPRISE APPLICATIONS

• AI Fundamentals	Generative AI Concepts
• SAP Joule	AI Assistant
• Prompt Engineering	Effective AI Prompts
• SAP AI Core	AI Model Management
• AI Launchpad	AI Lifecycle
• AI Services	Business Automation
• Intelligent Analytics	AI Insights
• Responsible AI	Governance & Ethics
• Enterprise AI	Business Applications
• Practical Learning	AI Project Implementation

DETAILED SYLLABUS

Course Curriculum

continued

SAP MM

MATERIALS MANAGEMENT & PROCUREMENT

• SAP MM Overview	Procurement Process
• Material Master	Vendor Master
• Purchase Requisition	Purchase Orders
• Inventory Management	Goods Receipt & Issue
• Invoice Verification	Procurement Cycle
• Requirements Planning	MRP
• Reporting	Analytics
• SAP Integration	MM with FI & SD
• Business Scenarios	End-to-End Procurement
• Practical Learning	Real-Time MM Project

SAP SD

SALES, DISTRIBUTION & ORDER-TO-CASH

• SAP SD Overview	Order-to-Cash Process
• Customer Master	Sales Documents
• Pricing	Sales Orders
• Shipping	Delivery Processing
• Billing	Invoice Management
• Credit Management	Returns Processing
• Reporting	Sales Analytics
• SAP Integration	SD with MM & FI
• Business Scenarios	End-to-End Sales Process
• Practical Learning	Real-Time SD Project

Placement assistance	✓	✗
Course completion certificate	✓	✓

Everything above is included in your course fee.

No paid add-ons, no separate charges for projects, recordings, mock interviews or placement support.

HOW WE TEACH

Our Learning Methodology

Three principles shape every session we run.

01

Practical Learning

Hands-on SAP labs, practical assignments and real business scenarios in every single course.

02

Live Instructor-Led Training

Interactive sessions with practising SAP consultants, real-time guidance and personal support.

03

Career-Focused Approach

Industry projects, mock interviews, resume guidance and continuous mentorship through your job search.

YOUR LEARNING JOURNEY

01

Learn from Experts

Attend live online sessions led by experienced SAP professionals and build a strong, industry-focused foundation.

02

Practise Real Scenarios

Strengthen your knowledge through hands-on labs, assignments and business case studies that simulate real enterprise environments.

03

Build Industry-Ready Skills

Work on practical projects, receive mentor feedback and develop the confidence to solve real SAP business challenges.

04

Certify & Launch Your Career

Complete the programme, earn your certificate and benefit from career guidance, interview preparation and placement assistance.

ENROL NOW
